

Hello and Good day to who it concerns

For all children and Living humans in Ct it should be free of choice to eat Gmos or not .

Our family's live in ct and we asking you to be so kind and label foods so we stay as free as we can be and choose quickly what we eat and what not.

We appreciate your time reading this and making Ct an example , that Amerika is a Land of The Free to choose Labels on there Food Even if cost will rise.

We thank you for choosing to Label Gmos and any ingredient on our foods.

Sending Love and Blessings
